## PLACES REGULATIONS IN FORCE OUTSIDE THE EMERGENCY ZONE

Whereas certain parts of the Presidency of Madras are visited by, and other parts are threatened with, an outbreak of a dangerous epidemic disease known as plague, and whereas the ordinary provisions of the law for the time being in force in the Presidency are insufficient for the purpose of preventing the outbreak or spread of the disease:

In exercise of the powers conferred by section 2, sub-section (1), of the Epidemic Diseases Act, 1897, and delegated to him under sub-section (3) of the same section by the notification of the Government of India in the Home Department, No. 2156 of the 22nd December 1906, the Governor of Port St. George in Council is pleased to prescribe, in accordance of all regulations previously issued on the subject, the following temporary regulations to be observed throughout the Presidency except the City of Madras for a period of two years from the 1st day of June 1914:—

1. In these regulations,

(a) "Area under observation" means any area which may be notified by the Governor in Council under these regulations to be under observation on account of its being imminently threatened with plague;

(b) "Infected area" means any area which may be notified under these regulations by the Governor in Council on, subject to his control, by the Collector of a district, to be infected with plague;

(c) "Notification station" means any railway station or other station which may be notified as such under these regulations by the Governor in Council;

(d) "Inspection station" means any railway station which is notified as such under these regulations by the Governor in Council for the observation and inspection of passengers;

(e) "A local authority" means the local medical officer, or if there is no such officer, the village headman, and includes any other person appointed as a local authority for the purpose of plague by the Collector of the district;

(f) "Plague officer" means the district medical and sanitary officer in his district and the revenue divisional officer within his jurisdiction and includes any other person who may be appointed by the Government as plague officer over any definite area;

(g) "Assistant plague officer" means in any municipal town the chairman of the municipal council and in other areas the tahsildar or deputy tahsildar each within his own revenue jurisdiction; and includes any other person appointed as such by the Collector of a district for any definite area.

2. The Governor in Council may, if it appears to him that any district, town, village or other area is imminently threatened with plague, cause an order declaring such district, town, village, or other area to be under observation. A copy of such order shall be published in the next issue of the Port St. George Gazette.

3. The Governor in Council may by notification in the Port St. George Gazette declare any place or area in which one or more indigenous cases of plague have occurred, or in which the existence of plague among rats has been proved by bacteriological tests, to be infected with plague. In cases of emergency the district Collector may notify by summons and by publication in the district gazette, as soon as possible thereafter, that any such place or area is infected with plague. The Governor in Council may in the same manner notify as a notification station any railway station, or other place, which from its proximity to infected areas or otherwise is liable to be used or passed by persons leaving such areas and may notify as an inspection station any railway station which may be convenient for the inspection and observation of passengers by rail.

4. In areas under observation and infected areas every householder and every medical practitioner, who feeds or becomes aware of the feeding of a dead rat in his house, or in any public or private dwelling or place within the limits of the municipality, town or village in which he resides, shall be bound to give information of the fact with the least practicable delay to the nearest local authority.

5. In areas under observation and infected areas, the Collector may close existing markets and may appoint special places where markets may be held and may prescribe limits beyond which it shall not be lawful for persons bringing articles for sale from or to an infected area to pass.

6. In areas under observation and infected areas the Collector may direct that consignments of grain arriving from plague-infected areas and that landing places, railway goods-sheds, and lamen used for traffic in grain shall be inspected; and that all rats found therein shall be killed and burnt, and the grain or place disinfected.

7. In areas under observation or infected areas the Collector or plague officer may, when he considers necessary, cause upon any premises, whether situated in a municipality or not, at any time during daylight and whenever necessary any work required by law, or commonly done by any of the persons described or indicated in, sections 166, 200, 220 and 228 of the District Municipalities Act, 1884, or sections 104 and 101 of the Local Boards Act, 1884.

8. In an infected area the Collector or plague officer may order that any shed and for accommodation of animals and freely to barrow and shall not be re-opened without his permission.

9. In an infected area the Collector of the district may prescribe that no person undertaking for hire the cleaning of clothing or other laundry process shall allow or wash or otherwise deal with clothing except at such places and at such times and under such conditions as he may direct.

10. (a) In an infected area the Collector, or a plague officer with the previous sanction of the Collector, may order the evacuation and destruction of infected houses and houses in their neighbourhood, or generally of any infected locality, and no person shall re-occupy such house or locality without the express permission of the Collector or plague officer.

(b) The Collector, or plague officer, may require the infected people to reside in such place as he may appoint, under such restrictions as he may deem necessary.

(c) The Collector, or plague officer, may make such arrangements as he thinks fit for the custody, care of the dead, of the effects of persons so arrested, provided that the Government shall not be responsible for any loss or damage to them.

*Exception.*—Houses and localities in which plague-infected rats have been discovered may be treated as infected.

11. In infected areas the Collector, with the previous sanction of Government, may separate such parties to such houses for the purpose of disinfecting cases of plague, when there is reason to believe that the residents are attempting to conceal them:

Provided that houses shall be allowed to be entered only by persons of the same caste or religion as the occupants and that women shall be employed in examining women and searching any room or place exclusively occupied by them.

12. Every person leaving an infected area within the Presidency by rail from a notification station shall take out a notification paper in the form shown in Appendix A before being allowed to board a train. Passengers coming by rail from infected areas outside the Presidency shall take out a similar notification paper at the first inspection station they may come to before being allowed to proceed on their journey.

(a) Travellers who enter this Presidency from the Mysore State by road through Sivamogga in the Coimbatore district and Tippahunda in the Nilgiri district, shall take out notification papers at those places in the form shown in Appendix A before proceeding.

(b) Other travellers by road or water are not required to take out notification papers.

*Exception.*—The following persons shall be exempt from the operation of this rule:—

(i) All Government officers, or officers serving under any municipality, local board or railway company, and drawing a salary of not less than Rs. 100 per mensem;

(ii) all persons drawing a pension of not less than Rs. 50 per mensem;

(iii) all registered medical practitioners, titleholders, special or honorary magistrates, members of local boards or municipal councils;

(iv) any other person to whom an exemption certificate in the form shown in Appendix C may be given by the Collector of a district, the President of the Corporation of Madras, or by the Government.

13. Every person required to take out a notification paper shall declare truly his name, address and such other particulars as may be required by the officer issuing the paper. The notification-holder shall on reaching his destination deliver the paper by post or by hand to the local authority of that place. The notification-holder and the householder, hotel-keeper or person in charge of the building shall also report to such authority any unusual mortality among rats or any case of fever, or plague, or suspicious sudden illness occurring within one month of the arrival of the notification-holder in the house or building in which he resides.

*Exception.*—(1) In the case of itinerant persons and minors who are under twelve years of age the duty of complying with this regulation shall devolve on their guardians.

(2) In the case of chattrams which have no regular keeper the village headman shall be deemed to be the person in charge.

14. Every railway passenger arriving at an inspection station shall be bound to deliver up his ticket on demand by any railway official or medical officer and shall also submit himself to such medical examination as the medical officer may deem necessary. The medical officer shall have power to detain for such period of time not exceeding three days, as he may deem fit, any such passenger who is, or is suspected to be, suffering from plague, or who has been in immediate contact with a case of pneumonic plague, and such passenger shall not continue on his journey without a certificate in the form shown in Appendix D. The medical officer shall have power to detain the baggage and goods of any passenger which he may consider to be infectious.

Provided that female passengers shall under no circumstances be compelled to undergo examination by men.

15. When a festival, fair or other public gathering which is likely to be attended by persons from an infected area is about to take place in an uninfected area, or when a festival, fair or other public gathering which is likely to be attended by persons from healthy areas is about to take place in an infected area, the Government in Council may by notification in the Gazette prohibit attendance thereof, and may if necessary stop temporarily the lines of railway tracks to prevent from or to such infected areas.

16. The Collector may divide an area under observation or the surface of an infected area into ranges, which may be called observation or preventive ranges as the case may be, and may appoint a plague inspector for each of them. Such plague inspectors shall have the powers of a local authority over that area and shall also have the powers of a police officer under rule 11.

17. Every householder and every medical practitioner shall at once report to the nearest local authority any case of plague, or any case of death with symptoms of plague, or any unusual mortality amongst rats, which comes to his knowledge.

10. No owner, driver or person in charge of a public conveyance shall carry any person suffering from plague; nor shall any person suffering from the disease enter or be taken in a public conveyance.

11. No person shall let, or show for the purpose of letting, a building or part of a building in which he knows, or has reason to know, that a person has suffered or is suffering from plague, without having such building or part thereof, and every article therein likely to retain infection, disinfect to the satisfaction of the medical officer appointed by the Collector in this behalf.

12. The Collector, plague officer or assistant plague officer may at any time enter, or authorize any one in writing to enter, any building or place in which plague is suspected or suspected to exist and may isolate any person suffering from or suspected to be suffering from plague and may also direct such building or place to be completely evacuated.

13. If the Collector or plague officer is of opinion that the destruction of any hut or shed is necessary to prevent the spread of plague, he may cause to be taken any measures for the destruction of such hut or shed and the contents of which it is constructed.

14. The Collector of the district, a plague officer, or assistant plague officer, the medical officer attending a plague case or a plague inspector (or a revenue inspector, if no other revenue officer of higher rank is available) may destroy the clothing, bedding, rugs and other articles found in possession of, or in the residence of, a person suffering from plague or suspected plague, as well as clothes worn on his person. The destruction of such clothing, etc., should, however, be resorted to only when effective means of disinfection are not available.

15. The Collector or plague officer may order the disinfection of any building in which sick or dead rats have been found.

16. For the purpose of effecting the disinfection prescribed by these rules, the Collector or plague officer may, at any time during daylight, force open any closed house which, in his opinion, requires disinfection: provided that a notice calling upon the owner or tenant of such house to open the house before a specified time shall have been served on him, or posted on some conspicuous part of the building, and the house has not been opened accordingly; and provided also that as little damage as possible shall be caused to the house in the act of opening. Locked receptacles inside the house may be forced open by the same officers or officers similarly authorized.

17. Collectors shall provide all facilities for the inoculation of persons who may desire to be inoculated against plague and every person successfully inoculated shall be given a certificate by the inoculating officer in the form shown in Appendix E.

Persons who hold inoculation certificates shall be entitled to the following privileges, provided that such certificates bear a date not earlier than nine months and not later than seven days previously:—

(a) Unless suffering or suspected to be suffering from plague, they shall not be liable to detention at any inspection station when travelling, except for such period as may be required to disinfect their baggage and clothes, if these are considered suspicious.

(b) Inoculated persons who have been living in an infected house or have otherwise been exposed to plague infection shall not be liable to be segregated, but may be required to evacuate the infected house and to have their clothes and personal effects disinfected. When, however, all the occupants of a house have been inoculated, neither the police nor the other inmates of the house shall be required to be segregated, provided arrangements are made to the satisfaction of a plague officer for the disinfection of the house and its contents, and for the prevention of the spread of plague to the neighbouring dwellings.

## NOTES AND SUGGESTIONS FOR INDIAN STUDENTS FOR THE ENGLISH BAC.

As Indian student desiring to be called to the English Bar must give one of the Tests of Obedience to the Law, pay certain fees, pass certain examinations, and keep 15 terms by sitting down at the Bar to which he belongs.

**Examination for Admission.**—Before being admitted to any of the Inns of Court the student must (unless he is a Vakil, a solicitor, or a member of the Inns or Colonial Bars) pass one of the qualifying examinations specified in the Consolidated Regulations of the four Inns; these examinations, and the subjects to be taken, are set out at the end of this leaflet.

**Certificate.**—The student must produce at least two certificates of good character, one from a respectable person who has known him for a year or more, and one from the Secretary for Indian Students and to make inquiries as to his character and circumstances through one of the Indian Advisory Committees. Every student coming from India to join the English Bar should therefore furnish himself with two testimonials before leaving home, should consult the Advisory Committee of the Province to which he belongs, and should ask the Committee to forward the testimonials needed to the Secretary for Indian Students at the India Office, London.

**Fees.**—The fees payable at the four Inns vary slightly, but the cost of being called to the Bar is about £100, or £120. Besides this, however, funds have to be found for the disbursements required by the

fees on the student's admission, which are returned without interest when he is called, or dies, or withdraws. The *Four Temple* requires, in addition to the fee of £42, 2s. 6d. paid on admission, and 10s. 6d. paid on call, a deposit of £100, as security, and also a deposit of £50, on account of Commencement and Fees. The *Middle Temple* requires, in addition to fee of £42, 7s. 6d. on admission, and of £64, 2s. 6d. on call, a deposit of £100 as security, but no further deposit on account of Commencement and Fees. *Lincoln's Inn* requires, in addition to fee of £42 on admission, and £42 on call, both £100 on security and £42 on account of Commencement and Fees. *Gray's Inn* requires, in addition to fee of £100 on admission, and £10, on call, both £200 as security and £60 on account of Commencement and Fees. Students at British Universities, however, who have kept two years' terms, are not compelled to make the deposit of £100 on the *Four Temples*, *Lincoln's Inn*, or *Gray's Inn*, and the *Four Temples* may accept in lieu this deposit before a University man has kept his two years' terms if he comes to compete there. The *Middle Temple*, however, will only accept the £100 deposit in the case of University men if a bond for it with two sureties (Barristers or Householders in England) is given by the student. The *Four Temples*, *Lincoln's Inn*, and *Gray's Inn* either will waive the demand for the £100 deposit if a bond is furnished by the student with two sureties approved by the Inn. But these services must be furnished or Householders in the country where the student lives, and officials of the Indian Students' Department cannot undertake the duty. It may therefore save Indian students inconvenience if they are prepared to pay the £50 deposit, as well as the deposit of £100, and they too in saving by paying these deposits except the interest on their money. Students whom the student has of course to bear the cost of living in England, for which not less than £100 or £200 a year should be allowed, and also the cost of any tuition or education which he requires.

**For Examination.**—After he is admitted to an Inn the student must pass the following examinations before he can be called to the Bar, and it should not be assumed that these examinations are easy:—

#### Part I.

- I. Roman Law.
  - II. Constitutional Law (English and Colonial) and Legal History.
  - III. Criminal Law and Procedure.
  - IV. Real Property and Conveyancing or Hindu and Mahomedan Law, or European-Indian Law.
- The student may take any or all of these examinations at any time after his admission.

#### Part II.

V. The Final examination, which must not without special leave be taken until the student has kept his terms, and which consists of four papers, all of which must be taken at the same examination, viz. (a) a paper in Common Law, (b) a paper in Equity, (c) a paper on the Law of Evidence and Civil Procedure, and (d) a General Paper on all these three subjects.

**General Education.**—A well-educated and competent student will find that the work required to pass his Bar examinations does not occupy the whole of his time for three years. It may be well, therefore, for him to read for a University degree or to read as a Barrister's student, or to follow some other kind of study. The disposition of the Courts in India is to raise the standard of admission for Barristers. The High Court of Calcutta requires Barristers whom it admits to take a degree in law in one of certain Indian Universities, or to take a degree in a British University, or to be educated for three years in the United Kingdom. The High Court at Allahabad requires a degree in a British University or three years' education in the United Kingdom.

**Reading in Chambers.**—Before this, the High Courts at Calcutta, Bombay and Allahabad now require that Barristers whom they admit shall have read in a practicing Barrister's chambers in England for at least one year: but the Court at Allahabad will waive this requirement in the case of a Barrister who has taken a degree in law in one of certain specified Universities in India and the United Kingdom. The Courts at Calcutta and Allahabad require that this year should be evidence of the three years spent in general education in the United Kingdom. The Court at Bombay requires that the chambers should be the chambers of a practicing European Barrister of more than 10 years' standing.

**Call to the Bar.**—All students when called by the Bar have to be prepared by a Reader of their Inn, and should endeavor to make the acquaintance of one of the Bar three or four years beforehand. The Secretary for Indian Students may be able to help them with introductions if required.

**Admission to High Courts or to Law.**—On returning to practice in India after their call, Barristers are required by the High Courts to produce proof that they have been duly called and have fulfilled the conditions which the respective Courts lay down. They may also be asked to furnish one or two certificates as to conduct and ability from responsible persons who have known them here, or it would, therefore, be well to take such certificates, but they should be procured independently of the Students' Department.

**Foreign.**—Foreign who have attended for 12 months in a Barrister's chambers in London may be called to the Bar after keeping a seven instead of 12.

**Notes on Examinations for Admission to one of the Inns of Court in London.**—Under the Consolidated Regulations of the Four Inns students can qualify for admission by passing the degree examination of any University in the British Dominions approved by the Council of Legal Education, or any examination which admits to the Indian Civil Service, or the Ceylon Service, or the Commission in the Army or Navy, or an Eastern Cadetship, or a Cadetship or to Woolwich, or the Senior Grade examination of the Irish Intermediate Education Board, or the School Certificate examination or the Higher Certificate examination held by the Oxford and Cambridge Schools Examination Board, or the School Examination (Matriculation Standard) of the University of London.

But Indian students who have not already qualified for a degree in India generally take one of the examinations set out in the tabulated statement annexed, in regard to which details are given showing the dates, the fees, and the subjects required.

5. Mariners are cautioned that the said date of Narval have extended seaward.

3. The Malappon Light, bright, fixed, will be exhibited from the daybreak from 15th May to 15th September.

4. In taking up an anchorage, due consideration should be given to the state of the weather. The anchorage given is a good one for all weathers, but smoother water will be found still further north. Vessels waiting for a quick despatch may, during fair weather, approach nearer Cochin to enable boats to get to and from Cochin, between Vijaypur point and the mouth, but in this position during a fresh breeze a short sea soon gets up, making shipping operations difficult and causing damage to boats.

The total value of the sea-borne trade advanced by Rs. 314 lakhs or nearly 8 per cent. over that of the previous year and is the highest on record. Foreign trade improved by Rs. 493 lakhs or 15 per cent., Rs. 440 lakhs being the increase under imports and Rs. 158 lakhs under exports, but coasting trade declined by Rs. 181 lakhs or 11 per cent. Foreign imports, excluding treasure and Government stores, expanded by Rs. 331.60 lakhs or 25 per cent. largely on account of the increased imports of *coffee goods, metals, railway material, machinery, hardware, motor vehicles and iron*. Imports of *gold and silver* further declined by Rs. 3.81 lakhs or 15 per cent. Exports of country produce rose by Rs. 95.57 lakhs or 4 per cent. due to larger shipments of *wadi, rice, rubber and raw silk*; but there was a decrease in the shipments of *raw cotton, raw silk, tanned hides and sugar*. Exports of treasure increased by Rs. 61.02 lakhs or 167 per cent.

Under coasting trade, imports of private merchandises declined by Rs. 59.52 lakhs owing to smaller receipts of *grain and palm* from Bengal; exports needed by Rs. 129.71 lakhs in consequence of smaller shipments of *raw cotton* to Bombay, *grain* to Bengal and *groundnut oil* to Burma.

The total gross revenue increased by Rs. 11.06 lakhs or 15 per cent. The amount of import duty realized exceeded the previous year's total by Rs. 8.86 lakhs or 13 per cent. The increase resulted chiefly from heavier imports of *coffee goods* (+ Rs. 4.32 lakhs or 12 per cent.), *metals*, excluding *silver* (+ Rs. 1.87 lakhs or 36 per cent.), *spices* (+ Rs. 0.59 lakhs or 7 per cent.) and *manufactured articles* (+ Rs. 0.82 lakhs or 6 per cent.), while imports of *petroleum* declined by Rs. 0.79 lakhs or 11 per cent. The increase of Rs. 2.24 lakhs or 22 per cent. under export duty was the result of larger shipments of *rice* to Ceylon and Mauritius.

## Standard Page Layout.

The following table shows the variations in the average prices of certain articles imported and exported. The mean for the years 1898-99, 1899-1900 and 1900-01 has been taken as the standard price level, viz., 100, which is followed by data for the last five years:—

[illegible]

Prices of imported goods ruled higher especially in the case of *coffee green-goods* and *hides*, while *sugar* and *iron and steel* receded from the high levels of the previous year. Under exports, the most marked advances were under *sugar*, *rice*, *raw cotton*, *oil seeds*, *groundnuts*, *cocoa*, *oil and tanned hides* and *skins*; while *sugar*, *cotton fabrics* and *iron* showed declines.

## FOREIGN TRADE

The following statement shows the value of the import and export trade of the Presidency according to the groups under which they are now shown in the Government accounts:—

[illegible]

**Imports.**—The increase under group I was due to larger imports of *bricks and tiles* and that under group III to heavier receipts of *iron goods, metals, railway material and machinery*. Large imports of *articles of glass* brought about an increase under group IV.

**Exports.**—Heavy shipments of rice and wax accounted for an increase under group I. The increase under group II is the net result of bigger shipments of *sauze*, *muller*, *raw silk* and *oil*, counterbalanced by smaller shipments of *raw cotton* and *raw silk*. Group III showed a decline as there were smaller exports of *tinued hides* while *leaves* and *articles* by *post* accounted for the increased trade under group IV.

Imports of malt *liquors* increased in quantity by 14 per cent. owing to a fall in the cost of production but were below the average for the past five years. Ninety per cent. came from the United Kingdom and the remainder mainly from Germany.

Imports of foreign potable spirits maintained the recovery noted last year, the increase being 16 per cent. compared with the previous year. There was an increase of 6,507 gallons of brandy or 16 per cent. of which France contributed 3,563 gallons, the United Kingdom 2,862 gallons, and Germany and Holland together 784 gallons. Imports of whisky increased by 8,478 gallons or 10 per cent., nearly all of it coming from the United Kingdom. Amongst other sorts of spirits, imports of gin amounted to 17,412 gallons, liqueurs 1,364 gallons, rum 1,375 gallons, and other descriptions, consisting mainly of flavoured essences and re-imported country spirits, to 11,075 gallons against 17,612, 950, 2,250 and 5,904 gallons, respectively, in 1912-13.

Wines showed an increase of 4,512 gallons, chiefly due to larger importations of port wine, from the following countries:—

Imports of sugar of all kinds, representing 4 per cent. of the total imports, rose by 8 per cent. in quantity and were the largest on record, but the value showed a decline of 6 per cent. Refined sugar decreased by 8 per cent. in quantity and 13 per cent. in value as the result of overstocking in consequence of speculative imports in 1912-13. The price of refined Java sugar opened at Rs. 10-8-0 per cent. at Madras. This rate continued up to June with slight fluctuations and then gradually fell to Rs. 9-4-0 until December, after which a small recovery took place. Imports of crystallized sugar which were inconsiderable during 1912-13, rose again to the normal quantity as the supply of local jaggery was short. Imports of molasses increased by 10 per cent., due to greater appreciation of its value in the manufacture of spirits as compared with other materials, such as, palm and date jaggery.

**Tobacco.**—The total imports of tobacco showed an increase of 55,029 pounds or 10 per cent. in quantity and Rs. 1-48 lakhs or 33 per cent. in value as will be seen from the table below:—

There were no imports of Russian oil during the year under review and the imports of American oil returned to the normal quantity. The value of reports from the Straits Settlements increased by 3 lakhs while shipments from Borneo decreased to the extent of 4 lakhs. Imports of *liquid fuel* practically doubled, and *lubricating oil* increased by 14 per cent. the countries supply having fallen nearly 50 per cent. There were no imports of foreign petrol, the increased supply required for motor vehicles being met by larger receipts from Burma which amounted to 440,436 gallons against 351,063 gallons in 1913-14.

**Textile materials.**—The imports of raw cotton, principally from America, for use in the Malacca Mills declined from 13,925 cwt. valued at Rs. 5.53 lakhs to 1,533 cwt. valued at Rs. 2.18 lakhs, the decrease being chiefly due to the decrease of the American product. Imports of raw silk mainly from China amounted to 61,543 pounds valued at Rs. 4.31 lakhs against 119,925 pounds valued at Rs. 6.41 lakhs. The decrease is attributed to unusually heavy imports in the previous year.

**Wood and timber.**—There was a considerable shrinkage in the imports of lumber from Siam, the value falling from Rs. 2.51 lakhs to Rs. 0.05 lakh. Imports of *jack-wood* from Western Australia improved from Rs. 0.71 lakh to Rs. 1.09 lakhs; other timber declined from Rs. 3.09 lakhs to Rs. 2.50 lakhs owing to smaller receipts from Siam.

**Miscellaneous.**—As usual the only noteworthy item under this head was mineral resources which showed a steady expansion. The figures for recent years are as follows:—

|        | 1909-10 | 1910-11 | 1911-12 | 1912-13 | 1913-14 |

## Foreign Imports.

The imports consisted mainly of sulphate of potash, basic slag, sulphate of ammonia and nitrate of lime at the West Coast ports, and they indicate the activity of the planting industry in Southern India. Supplies came from Germany, Belgium and the United Kingdom to the value of Rs. 1-28, 1-55, and 1-27 lakhs, respectively, against Rs. 2-58, 0-72 and 1-24 lakhs in the previous year.

## III.—ARTICLES WHOLLY OR MAINLY MANUFACTURED.

**Carrriages and carts including cycles and motor-cars.**—There was very little variation in the value of *carrriages and carts* imported. Motor vehicles and accessories showed further expansion from Rs. 18-67 lakhs to Rs. 23-40 lakhs. *Motor cars* numbered 445 against 300 in the previous year; 235 came from the United Kingdom and 143 from the United States. The number of motor cycles was 510, 283 being of British manufacture; 269 were imported in the previous year. Eight motor buses valued at Rs. 43,840 were imported against four of the value of Rs. 37,820 in 1912-13. The rapid increase in the imports of motor vehicles is shown by the following values in lakhs of rupees for the past six years:—

|         |     |     |     |      |         |     |     |       |

\* Not shown separately.

The trade in hardware showed further expansion. The decrease under *coated ironware and ironware* was due to abnormal imports in 1912-13. The total value of imports of *cutlery and appliances* improved by Rs. 3-61 lakhs to Rs. 17-12 lakhs, the increase being chiefly under electrical instruments.

Foreign Imports.

**Dyes and colours.**—The imports of *dyeing and tanning substances* showed a slight falling off from Rs. 10-58 lakhs to Rs. 15-37 lakhs due to smaller arrivals of *chlorine dyes*, which fell from 1,751,799 pounds valued at Rs. 6-82 lakhs to 1,459,124 pounds valued at Rs. 7-67 lakhs in consequence of heavy supplies in the previous year. Imports of *aniline dyes* amounted to 435,011 pounds of the value of Rs. 1-56 lakhs against 457,393 pounds valued at Rs. 3-23 lakhs. Germany supplied *chlorine* and *aniline* respectively to the value of Rs. 2-75 and Rs. 2-50 lakhs and Belgium sent Rs. 4-43 lakhs of *chlorine* and Rs. 0-43 lakhs of *aniline*. *Specific salts* amounting to 1,055 cwt. valued at Rs. 1-45 lakhs did not show much variation.

Imports of *prints and painters' materials* improved from Rs. 0-53 lakhs to Rs. 8-69 lakhs. Increased supplies came from the United Kingdom.

**Glassware and earthenware.**—With an increase of Rs. 1-28 lakhs, the trade in *glass and glassware* aggregated Rs. 20-63 lakhs. Imports of *bevels* advanced from Rs. 6-76 lakhs to Rs. 8-79 lakhs owing to larger receipts from Austria-Hungary and Germany. *Bevel and false pearl* increased by Rs. 0-27 lakh, *bottles and plates* by Rs. 0-66 lakh and *sheet and plate glass* by Rs. 0-49 lakh; but *glass lampware* declined by Rs. 0-48 lakh. The total imports of glassware for the past two years were as follows:—

Imports of *earthenware* amounted to Rs. 3-61 lakhs against Rs. 3-30 lakhs in 1912-13, the United Kingdom being responsible for an increase from Rs. 1-70 lakhs to Rs. 2-02 lakhs.

**Machinery of all kinds including bolting for machinery.**—Imports under this head expanded by Rs. 14-51 lakhs to Rs. 75-55 lakhs. *Bolting for machinery* improved from Rs. 3-75 lakhs to Rs. 3-25 lakhs. The following are the details under imports of machinery and millwork:—

The increase under *prime movers* was due to larger receipts of oil engines. *Electrical machinery* advanced by Rs. 2-71 lakhs, and *pressing machinery* by Rs. 2-40 lakhs, as heavy imports took place for renewal and repairs at the Kolar mines. The decrease of Rs. 5-38 lakhs under *textile machinery* is attributable to heavy imports in 1912-13 for the erection of new mills. Of the total imports of machinery and millwork, the United Kingdom supplied Rs. 42-82 lakhs against Rs. 51-95 lakhs in the previous year.

The importation of iron bars by sea began to decline in 1911-12 when bars manufactured in Pondicherry were imported by land, and the decline continued during the year under review. Imports of steel have practically quadrupled. In 1912-13 rates in the United Kingdom were high and local dealers bought only to cover their immediate requirements. In the summer of 1913, when prices in the home markets became easier, large purchases were made to replenish stocks. The increase of Rs. 18-65 lakhs under pipes and tubes was due to heavy imports for the extension and repairs of the Madras water-works and for the construction of new works at Yerakulam. Of the total imports of iron and steel, the shares of the United Kingdom and Belgium were 45 and 46 per cent. against 48 and 41 per cent.

Imports of aluminium declined by 6 per cent. in quantity but the value showed an increase of 10 per cent. The United Kingdom, the United States and Germany sent supplies to the value of Rs. 8-65, 1-41 and 0-98 lakhs against Rs. 2-25, 1-79 and 1-04 lakhs in 1912-13. Madras and Cochin were the only ports at which aluminium was imported, their shares being Rs. 3-85 and 2-48 lakhs.

**Foreign Imports.**

The total value of the imports of cotton goods, representing 25 per cent. of the total foreign imports, advanced by 31 per cent. Fair profits were enjoyed both by domestic dealers and importers during the previous two years which tempted them to speculate 'forward'. The result was that speculative buying was indulged in to such an extent that at the present moment there are very heavy stocks on hand. These stocks will affect the import trade of the current year.

**Cotton twist and yarn.**—The imports of *yarn* continued to expand during the year under review, the rise in volume being 5 per cent. and in value 9 per cent., while the average declared value per pound rose from Rs. 15-8 to Rs. 1-0-3. There was an increase of 3 and 4 per cent. under coloured and unspecified yarns, while *males yarn* decreased by 15 per cent. The common counts Nos. 30 and 40 declined by Rs. 2-41 lakhs under *males twist*; but under coloured yarn they advanced by Rs. 4-83 lakhs. The finer counts above No. 50 declined by Rs. 0-27 lakhs under *males* and by Rs. 2-09 lakhs under coloured yarn partly owing to large stocks and partly to smaller demands for Madras handkerchiefs, the export trade in which was dull. Imports of unspecified descriptions improved by Rs. 12-74 lakhs.

**Cotton piece-goods.**—The imports of cotton piece-goods, amounting to 222-13 million yards, showed an increase of 35 per cent. in quantity and 12 per cent. in value. The average price per yard was Rs. 0-3-1 against Rs. 0-3-2 in the previous year. *Greys* improved by 49 per cent. in quantity and 61 per cent. in value. Imports of *jacquets*, including madras, muslins, *males* and *embroiders*, increased by Rs. 49-19 lakhs, *cholis*, *waist* and *scarves* by Rs. 12-71 lakhs, *lengths* and *shirtings* by Rs. 14-94 lakhs. *Prints* improved by Rs. 39-30 lakhs, to which *jacquets*, madras, muslins, *males*, *embroiders* and *muslins* contributed Rs. 3-10 lakhs. Under coloured *piece-goods*, *embroiders*, madras, muslins, etc., advanced by Rs. 4-93 lakhs, *prints* and *cholis* by Rs. 7-95 lakhs, or a total increase of 9 per cent. in value. The trade in piece goods was almost entirely confined to the United Kingdom, all other countries sending only Rs. 2-56 lakhs' worth or 0-5 per cent.

**Other cotton fabrics.**—The increase of Rs. 2-66 lakhs was due to larger receipts of handkerchiefs, hosiery and sewing thread.

**Hakerdashery and Millinery.**—There was an increase under this head from Rs. 9-45 lakhs to Rs. 10-85 lakhs as follows:—

|                         | 1912-13.<br>Rs.<br>LAKHS. | 1913-14.<br>Rs.<br>LAKHS. |

**Jute and wool.**—Imports of *jute fabrics* slightly improved from Rs. 10-91 lakhs to Rs. 11-37 lakhs. There were larger re-imports of *peel rice gunny bags* from Ceylon as a result of increased shipments of rice to that colony. *Woolen goods* also improved from Rs. 7-41 lakhs to Rs. 8-12 lakhs in consequence of larger supplies of yarn, knitting wool, and woolen piece-goods from the United Kingdom and Germany.

**Other minor items.**—Imports of *arms*, *ammunition* and *military stores* showed a further decrease from Rs. 1-12 lakhs to Rs. 10-13 lakhs and, as in 1912-13, this was due to smaller arrivals of explosives which fell from Rs. 5-69 lakhs to Rs. 5-46 lakhs. *Bags* and *printed matter* improved from Rs. 1-73 lakhs to Rs. 4-55 lakhs. Imports of *banding and engineering materials* declined from Rs. 15-83 lakhs to Rs. 11-34 lakhs. This decrease was anticipated in last year's review as the figures there recorded were abnormal. The imports of *cement* fell from 36,328 tons valued at Rs. 12-4 lakhs to 17,399 tons valued at Rs. 5-05 lakhs, the decrease being mainly due to heavy stocks at the end of last year. *Matches* fell to the level of 1911-12, the value of imports being Rs. 11-15 lakhs against Rs. 12-19 lakhs in 1912-13. *Safety matches* accounted for Rs. 3-56 lakhs of the total to which Japan contributed Rs. 1-75 lakhs, Austria-Hungary Rs. 1 lakh and Sweden Rs. 0-5 lakh. Of other sorts of matches, Norway and Sweden together supplied Rs. 4-70 lakhs or more than 55 per cent.

The exports of grain and pulse increased by 26 per cent. in quantity and 38 per cent. in value over those of the previous year. Exports of paddy (rice unshaded) declined by 48 per cent. in quantity and 49 per cent. in value. Merchants in northern parts of the Presidency who formerly exported cheap black paddy, found it more profitable to ship milled rice. Exports of rice (shaded) expanded by 39 per cent. in volume and 46 per cent. in value. Owing to damage to crops by the floods in Bengal and the consequent high rates prevailing there, exports of rice from this Presidency to Ceylon increased by 47 and 64 per cent. in quantity and value, respectively. Shipments to Mauritius increased by 80 per cent. in quantity and 85 per cent. in value. Prices ruled higher, especially in the case of rice, as will be seen from the table below, which gives the price per hundredweight.—

Early in the year the exports of pepper were disappointing, but as there was an excellent harvest and a good demand in Europe the shipments finally showed an increase of 18 per cent. in quantity and 14 per cent. in value over those of 1912-13. Shipments to Germany, Italy, the United States and the United Kingdom rose by Rs. 5-82, 2-50, 2-45 and 1-35 lakhs, respectively, while those to France declined by Rs. 8-71 lakhs.

Sugar showed an increase of 13 per cent. in quantity but the value recorded by Foreign Exports, 4 per cent., the average price per pound having fallen from Rs. 4-4 in 1911-12 to Rs. 3-8 last year and to Rs. 3-2 per pound in the year under review. Exports to the United Kingdom rose from Rs. 5-26 lakhs to Rs. 4-57 lakhs, while those to Germany and the United States declined from Rs. 2-04 and Rs. 1-63 lakhs to Rs. 1-63 and Rs. 1-42 lakhs respectively.

Coffee were in strong demand for the use of the Indian settlers in Ceylon and the Straits Settlements. Exports of cardamoms improved by 70 per cent. in quantity and 107 per cent. in value as there was a large demand in the United Kingdom, Germany and Ceylon.

Sugar.—Exports of sugar were confined chiefly to unrefined sugar (35 Dutch Standard and below). The area under sugarcane cultivation having fallen by 21 per cent. the exports recorded from 233,354 cwt. valued at Rs. 21-17 lakhs to 155,639 cwt. valued at Rs. 9-93 lakhs. Exports to the United Kingdom and Ceylon amounted to Rs. 4-41 and 3-32 lakhs against Rs. 10-59 and 3-25 lakhs in 1913-13. The average price of sugary declined from Rs. 7-3-0 to Rs. 5-11-5 per cwt.

Tea.—The exports of tea were distributed as follows:—

| Tea.   | Average for five years ending 1910-11. |            | 1911-12.          | 1912-13.   | 1913-14.          | Increase or decrease in 1913-14. |                   |

There has been a further increase of 3 per cent. both in quantity and value constituting another record. The average under tea in 1913 is stated to have been 63,308 as compared with 58,664 in 1912. Travancore and Nilgiris teas of fine quality and flavour have gained in popularity. The share of the United Kingdom in the total exports expanded from 40 to 58 per cent., while that of Canada and Ceylon declined from 23 and 21 per cent. to 25 and 15 per cent. The decrease in the case of Ceylon was largely due to blending being done in Travancore instead of in Ceylon.

The above table includes 511,066 lbs of green tea valued at Rs. 3-19 lakhs in 1913-14 and 763,795 lbs. valued at Rs. 4-83 lakhs in 1912-13.

Coffee showed a decline of nearly 2 per cent. in quantity and 1 per cent. in value. The shipments during the first nine months of the year were from the crop of 1913-13, which was unusually small, but as there was a steady demand for South Indian coffee, consignments fetched good prices, the average price being Rs. 59-14-0 per cwt. as compared with Rs. 55-12-0 in the previous year. The crop for

**Foreign Reports.** 1913-14 were good and shipperate during the last three months of the year were large, but prices fell slightly in sympathy with the lower price of Brazilian coffee, which generally rules the world's markets. A noteworthy feature of the year's trade was that the demand from the United Kingdom (measured by 11 per cent in quantity and 7 per cent in value, while shipments to France declined) to a corresponding extent.

**Tobacco.**—The quantity of *bay tobacco* exported rose from 1,984,963 lbs. valued at Rs. 3-40 lakhs to 2,244,511 lbs. valued at Rs. 4-29 lakhs, an increase of 23 per cent. and 34 per cent. respectively. Nearly all of it went to the Straits Settlements and the Federated Malay States. Exports of cigars amounted to 953,863 lbs. having a value of Rs. 5-91 lakhs against 969,811 lbs. of the value of Rs. 6-03 lakhs in 1912-13, more than half going to the Straits Settlements and the Federated Malay States. High grade cigars to the value of Rs. 0-88 lakh were exported to the United Kingdom.

Raw hides (*i.e.*, cow and buffalo hides) showed a decline of 5 per cent. in quantity and 7 per cent. in value as compared with the previous year, but shipments were on a larger scale than those of any year prior to 1912-13. Exports of raw goat (*i.e.*, sheep and goat skins) were the smallest on record, the decline in quantity being 43 per cent. and in value 45 per cent. The decrease was partly due to the large export trade from Bombay on account of its superior rail connection with the Deccan, Southern Mahratta, Saur and the Central Provinces, and partly to smaller demands and low prices offered for Madras goat skins because of the inferior qualities shipped during the boom of the previous year.

**Metallic ores.**—The exports of manganese, which is the chief ore exported, rose from 54,099 tons valued at Rs. 4-20 lakhs to 58,758 tons valued at Rs. 2-73 lakhs. The decrease is attributed to the fact that European markets have been more freely supplied with Russian manganese. There were no exports to France and the United States during the year under review, whereas in 1912-13 those countries took one to the value of Rs. 1-29 and Rs. 2-14 lakhs respectively. Exports to the United Kingdom and Belgium amounted to Rs. 1-17 and Rs. 1-63 lakhs against Rs. 0-77 and Rs. 0-11 lakh in the previous year.

**Oils.**—With an increase of Rs. 11-48 lakhs the exports of oils totalled Rs. 49-65 lakhs. Under essential oils, *leucopercs* of from South Malabar were again in much demand in foreign markets and showed increased shipments from 21,215 gallons valued at Rs. 7-11 lakhs to 47,651 gallons valued at Rs. 10-30 lakhs. France was the chief customer with Rs. 5-65 lakhs' worth against Rs. 4-29 lakhs' worth in 1912-13. Germany and the United Kingdom accounted for a value of Rs. 2-48 and Rs. 1-34 lakhs respectively.

Under vegetable oil exports of coconut oil, representing 51 per cent. of all oils, rose from 925,971 gallons valued at Rs. 18-48 lakhs to 1,010,183 gallons valued at Rs. 21-48 lakhs, but were below the average for the previous five years. The

EXPORTS were due to the larger coconut crop and higher prices, the average value having risen from Rs. 2 to Rs. 2-2 per gallon.

Shipments were as follows:—

|                 | 1913-14. | 1912-13. |
|-----------------|----------|----------|
| United States   | 855      | 9-46     |

| Sweden          | 1-58     | 5-55     |
| Other countries | 2-55     | 2-58     |

Owing to heavier shipments to Ceylon, exports of order oil increased from 166,531 gallons valued at Rs. 1-34 lakhs to 169,346 gallons valued at Rs. 1-89 lakhs, and those of groundnut oil from 216,119 gallons to 212,595 gallons in quantity and from Rs. 3-82 lakhs to Rs. 4-54 lakhs in value.

Seeds.—Seeds, including copra, represented 21 per cent of the total exports of Indian produce. The trade, amounting to 238,948 tons, valued at Rs. 832-90 lakhs, surpassed the previous year's exports by 2 per cent in quantity and 13 per cent in value. The quantities and values of the principal seeds exported are shown below:—

Essential oil seeds.—Exports of essential oil seeds increased by 22 per cent in quantity and 21 per cent in value. This was due to larger exports of coconut seed which rose from Rs. 2-58 lakhs to Rs. 3-03 lakhs.

Other seeds.—Exports declined by 52 per cent both in quantity and value. The yield was small and of poor quality.

*Copra or coconut kernel.*—Exports of copra improved by 11 per cent. in quantity and 21 per cent. in value and the average price showed a further rise from Rs. 12-12 to Rs. 20-6 per cent. The marked increase in the demand for copra is shown by the following statement:—

Formerly copra was used chiefly in the manufacture of soap but in recent years, improved methods of refining have rendered its peculiar taste and its value as a food is now generally recognised. Copra from Malabar commands a higher price in Europe than that from any other source. Cochin supplied 71 per cent. of the total exports. Shipments to Belgium increased sixfold and those to France trebled. Russia increased her share by 75 per cent. but shipments to Germany declined by 12 per cent.

The following table shows the foreign trade in the several products of the coconut palm during the past five years:—

*Cottoseed.*—Exports of cottoseed declined by 85 per cent. both in quantity and value. This was partly due to a fall in the price of cottoseed in the Home market and partly to larger local consumption of the seed as food for cattle.

*Groundnuts.*—The export trade in groundnuts, which represented 76 per cent. of the total exports of seeds, increased by 9 per cent. in quantity and 18 per cent. in value as compared with the previous year. The increased demand was due chiefly to the discovery of a new process for desodorising the oil expressed from the nut, which was considered for a long time suitable only for soap-making. By this new process of refinement the oil is freed from its original taste and smell and has become a very important article of food in Southern Europe where vegetable oil takes the place of butter. It also forms an effective substitute for olive oil. The area under groundnut cultivation increased by 27 per cent. In many districts such as Bellary, Kanneel and Anantapur the cultivation of this crop is rapidly extending. Exports to France, which represented 90 per cent. of the total exports increased by 30 per cent. Shipments to Germany were four times greater than in 1912-13 and three to Italy more than twice as large. On the other hand, Belgium and Austria took 15 and 8 per cent. less than in the previous year. Exports from the chief port to foreign ports rose from 54,892 tons to 72,653 tons, or by 109 per cent., and the value increased from Rs. 55-12 lakhs to Rs. 123 lakhs or by 141 per cent. This heavy increase was however largely counterbalanced by smaller shipments to Calcutta, exports to which having fallen from 32,564 tons valued at Rs. 55-10 lakhs to 7,462 tons valued at Rs. 11-74 lakhs, a decrease of 24,882 tons or 77 per cent. Taking the exports foreign and countries together, the total for the chief port was

80,155 tons against 67,556 tons in the previous year, an increase of 19 per cent. Foreign. The total value rose from Rs. 102·42 lakhs to Rs. 129·74 lakhs, an increase of 27 per cent. Shipments to foreign ports were as follows:—

|  | 1912-13. |             | 1913-14 |              | Percentage of increase or decrease in quantity. |

Exports from Pondicherry amounted to 86,599 tons against 110,503 tons in 1912-13, a decrease of 21 per cent.

*Spices (of all kinds).—*The export trade in aromatic seeds improved by 115 per cent. in quantity and 119 per cent. in value, but was below the level of the previous five years. The area of cultivation increased by 10 per cent. under the stimulus of the high prices of recent years, and the season proved favourable owing to timely rains. Exports to France increased threefold and those to Austria more than doubled.

*Other seeds.—*Among other sorts of seeds, exports of sugar increased from 1,461 tons valued at Rs. 2·60 lakhs to 2,071 tons valued at Rs. 3·10 lakhs and those of mung seed from 489 tons valued at Rs. 0·75 lakh to 1,327 tons valued at Rs. 2·83 lakhs, as there was a larger demand from Germany.

*Textile Materials.—Cotton, raw.—*Exports of raw cotton declined by 27 per cent. in volume and 22 per cent. in value. The distribution of the shipments is shown in the following table:—

The average value increased from Rs. 37·15-0 to Rs. 38·5-0 per cwt. When compared with 1912-13 the raw cotton showed an increase of 7·1 per cent, and the estimated yield an increase of 9 per cent. The decrease in quantity was partly due to the fluctuations of prices in foreign markets during the first half of the year on account of the uncertainty then prevailing about the new American crop, and partly to the diversion of trade to Bombay where shipping freights were lower. Shipments to the United Kingdom and Belgium fell by 8 and 23 per cent, while those to Italy increased by 31 per cent. owing to the conclusion of the Italian war. The striking decrease in shipments to China and Japan was due partly to a larger output of cotton in China, and partly to losses sustained on the heavy shipments of Indian cotton to Japan last year. The distribution of trade under the three main varieties was—(combed 123,837 cwt., Yarned, 406,551 cwt. and

**Foreign Exports.**—Northern and Western 251,029 cwts. against 241,781 cwts., 497,268 cwts. and 334,575 cwts. in the previous year.

**Hemp, raw.**—Exports showed an increase from 2,215 tons to 2,654 tons in quantity and from Rs. 7-09 lakhs to Rs. 7-43 lakhs in value. Shipments to Italy and the United Kingdom increased from Rs. 2-61 and Rs. 3-21 lakhs in 1912-13 to Rs. 5-15 and Rs. 3-30 lakhs respectively.

**Jute, raw.**—Exports of raw jute showed a noticeable development from 3,435 tons valued at Rs. 9-39 lakhs to 22,003 tons valued at Rs. 17-70 lakhs. Local consumption declined considerably owing to the closure of the South Indian Industrial Company's factory at Chittavola. The result was that all the available supply was exported. Exports were as follows:—

|                 | 1912-13.   |     | 1913-14.   |       |

**Wool and timber.**—The total value of exports amounted to Rs. 23-35 lakhs against Rs. 20-78 lakhs in 1912-13. The increase of Rs. 2-55 lakhs was due to larger exports of unfinished, the value of which rose from Rs. 14-06 lakhs to Rs. 18-22 lakhs. As usual Mysore supplied the bulk of the unfinished exported. The following table shows the exports of unfinished for the past two years:—

|                 | 1912-13.   |     | 1913-14.   |      |

**Miscellaneous.**—*Bristles and fibre for brushes and brooms* consisted chiefly of *palmyra* fibre shipped from Cannada, Tuticorin and Calicut, and amounted to Rs. 12-36 lakhs against Rs. 14-05 lakhs in 1912-13. Exports of *sesame* declined from Rs. 18-24 lakhs to Rs. 14-84 lakhs. Shipments of *hemp* were about the same as last year and amounted to Rs. 5-15 lakhs. *Indians* and *gums* fell from Rs. 3-09 lakhs to Rs. 5-81 lakhs and other *manures* from Rs. 4-81 lakhs to Rs. 3-65 lakhs. The quantity of *rice* exported rose from 448 tons to 544 tons or by 17 per cent. and the value from Rs. 6-43 lakhs to Rs. 8-46 lakhs or 30 per cent. The United Kingdom and Germany received respectively Rs. 7-12 and Rs. 1-14 lakhs' worth of *rice* against Rs. 4-41 and Rs. 7-4 lakhs' worth in the previous year.

**Rubber.**—Exports of rubber showed a further expansion of 79 per cent. in quantity and of 55 per cent. in value. The figures for the last five years are given below:—

|         | CWT. |        | Rs.       |  |
|---------|------|--------|-----------|--|
| 1909-10 | ...  | 376    | 1,86,100  |  |

| 1913-14 | ...  | 15,059 | 66,21,105 |  |

The average under rubber in the Presidency was 7,488 in 1911-12, 8,110 in 1912-13 and 1,40,024 at the end of 1914. The quality of South Indian rubber improved considerably and compared favourably with that from Ceylon and the Malay states, but prices were much below those of the previous year. Shipments were made principally to the United Kingdom and Ceylon to the value of Rs. 35-20 lakhs and Rs. 25-54 lakhs respectively against Rs. 20-15 lakhs and Rs. 20-53 lakhs to 1912-13.

Exports.

**Chemicals, drugs and medicines.**—Exports of chemicals were insignificant. Under drugs and medicines, exports of *cinchona bark* showed a decline from 656,285 lbs. valued at Rs. 1-37 lakhs to 645,102 lbs. valued at Rs. 1-24 lakhs, the United Kingdom being the sole consumer. Exports of *gum arabic* amounted to 1,729 tons valued at Rs. 1-60 lakhs against 1,637 tons valued at Rs. 1-61 lakhs and were divided between the United Kingdom and the United States. *Senna leaves* declined from 1,932 tons to 1,500 tons in quantity and from Rs. 5-65 lakhs to Rs. 3-97 lakhs in value. The United Kingdom took Rs. 1-93 lakhs' worth and the United States Rs. 1 lakh's worth.

**Dyes and colours.**—*Dyeing and tanning substances* showed a slight fall from Rs. 15 lakhs to Rs. 12-15 lakhs. Exports of *indigo* further declined from 103 tons 55-89 tons in volume and from Rs. 3-25 lakhs to Rs. 2-95 lakhs in value, and were the lowest on record. The area under indigo fell by 35 per cent and the estimated yield by 22 per cent, the decrease being most marked in the South Arcot district where the cultivation of groundnuts has increased. Exports of *supplerash* declined from Rs. 5-73 lakhs to Rs. 3-45 lakhs. Shipments to the United Kingdom fell from Rs. 2-54 lakhs to Rs. 1-35 lakhs, but shipments to Germany rose by Rs. 0-30 lakh. There was no variation in the exports of *terracotta*, which amounted to Rs. 4-68 lakhs.

The total exports of *tanned hides and skins* declined by 15 per cent in weight and 8 per cent in value. *Tanned hides* rose by 26 per cent in weight and 24 per cent in value but the average price rose from Rs. 11-11 to Rs. 12-5 per pound. The decrease was due to fewer shipments of *tanned cow skins* as the price of the raw article in Northern India was high and the prices offered in London were comparatively low. *Tanned goat skins* improved by 24 per cent, both in weight and value. Shipments to the United Kingdom increased by 21 per cent, and those to the United States by 121 per cent. The change introduced in October 1913 in the American tariff, exempting tanned articles from duty, gave rise to larger exports of *tanned goat skins* to the United States. Exports of *tanned sheep skins* declined by 5,155 cwts. in quantity and Rs. 17-17 lakhs in value, the United Kingdom and the United States sharing the decrease almost in equal proportions. Exports of *tanned calf skins* amounted to 6,733 cwts. against 7,654 cwts. in 1912-13 most of which went to the United Kingdom.

The following table shows the quantity and average price of the different kinds of skins:—

The value of imports increased by Rs. 236-26 lakhs or 31 per cent. and that of exports by Rs. 155-58 lakhs or 8 per cent. #### BRITISH EMPIRE

*United Kingdom.*—The trade with the *United Kingdom* represented 42-63 per cent. of the total trade as compared with 49-74 per cent. in the previous year and showed an increase of Rs. 288-35 lakhs or 19 per cent. The expansion of Rs. 219-60 lakhs or 33 per cent. under imports was due to heavy imports of cotton goods (+Rs. 145-16 lakhs), railway materials (+Rs. 22-29 lakhs), metals (+Rs. 38-54 lakhs), machinery (+Rs. 11-58 lakhs), hardware (+Rs. 6-89 lakhs), motor vehicles (+Rs. 5-01 lakhs), articles imported by post (+Rs. 5-26 lakhs) and instruments (+Rs. 2-45 lakhs). Exports increased by Rs. 17-78 lakhs on account of larger shipments of raw jute (+Rs. 43-42 lakhs), tea (+Rs. 15-32 lakhs), rubber (+Rs. 11-18 lakhs), tanned skins (+Rs. 12-02 lakhs), oil (+Rs. 4-44 lakhs), coffee (+Rs. 3-58 lakhs) and rice (+Rs. 2-11 lakhs), partly counterbalanced by smaller shipments of tanned hides (—Rs. 37-15 lakhs), sugar (—Rs. 11-78 lakhs), ester seeds (—Rs. 8-45 lakhs), groundnuts (—Rs. 7-45 lakhs), copra (—Rs. 6-73 lakhs), raw silk (—Rs. 5-23 lakhs), cotton handkerchiefs (—Rs. 2-45 lakhs) and raw cotton (—Rs. 2-48 lakhs).

*Ceylon.*—The import trade with *Ceylon* improved by Rs. 5-72 lakhs due to increased receipts of jute gunny bags and articles by post, while exports to that colony advanced by Rs. 68-03 lakhs owing to larger shipments of rice and paddy (+Rs. 54-54 lakhs), rubber (+Rs. 5-01 lakhs) and oil-cake (+Rs. 4-18 lakhs). Exports of coloured piece-goods, especially lungis and saris, and tea were smaller by Rs. 5-11 and Rs. 1-58 lakhs, respectively.

*Siam and Siamois.*—Imports increased by Rs. 11-27 lakhs, benzene oil and betelnuts being chiefly responsible for the improvement. Exports rose by Rs. 15-03 lakhs owing to larger shipments of coloured piece-goods and articles by post.

*Other British Possessions.*—The trade with *Newfoundland* improved by Rs. 10-44 lakhs as more sugar was imported and more rice was exported. Exports of tea to *Canada* during 1913-14 curtailed the total trade by Rs. 1-59 lakhs. *Western Australia* increased her trade by Rs. 8-28 lakhs by supplying large consignments of wooden sleepers, while the trade with *Victoria* fell by Rs. 2-81 lakhs on account of smaller shipments of coffee to that country.

#### CONTINENTAL EUROPE

The trade with the continent of *Europe* developed by Rs. 318-48 lakhs or 10 per cent. Imports improved by Rs. 49-04 lakhs or 25 per cent. and exports by Rs. 64-42 lakhs or 7 per cent. Larger shipments of copra enhanced the trade with *Russia* by Rs. 5-83 lakhs. The total trade with *Germany* developed by Rs. 41-63 lakhs or 14 per cent. Imports improved by Rs. 27-16 lakhs, for which railway plant and rolling stock (+Rs. 10-18 lakhs), copper (+Rs. 6-23 lakhs) and iron and steel (+Rs. 7-42 lakhs) were mainly responsible. The increase of Rs. 14-47 lakhs under exports was due to heavier shipments of raw jute (+Rs. 17-35 lakhs), pepper (+Rs. 6-33 lakhs) and groundnuts (+Rs. 4-17 lakhs), but there were smaller shipments of oil-cake (—Rs. 6-72 lakhs), copra (—Rs. 4-32 lakhs) and raw cotton (—Rs. 4-03 lakhs). The trade with *Belgium* showed an increase of Rs. 7-12 lakhs brought about by larger supplies of cotton twist to India and bigger shipments of car manufactures and copra to Malacca. However receipts of iron and steel swelled the imports from *Belgium* by Rs. 18 lakhs, while there was a fall of Rs. 2-96 lakhs in the exports to that country brought about by smaller shipments of raw cotton partly met by larger shipments of copra. The trade with *France* amounted to Rs. 470-87 lakhs against Rs. 452-54 lakhs in 1912-13, an increase of Rs. 41-58 lakhs or 9 per cent. Imports, advanced by Rs. 5-86 lakhs owing to larger arrivals of articles by post; and exports rose by Rs. 15-57 lakhs in consequence of increased shipments of groundnuts (+Rs. 46-72 lakhs), copra (+Rs. 8-83 lakhs) and raw jute (+Rs. 5-32 lakhs); but there was a fall in the

exports of pepper (— Rs. 371 lakhs), castor seeds (— Rs. 449 lakhs), raw cotton (— Rs. 448 lakhs), coffee (— Rs. 426 lakhs) and raw skins (— Rs. 292 lakhs). Decreased exports of cotton brought about a decrease in the trade with Spain. Italy received more raw cotton and pepper and the trade increased by Rs. 1546 lakhs. The trade with Austria-Hungary declined by Rs. 741 lakhs owing to reduced imports of improved smaller exports of raw cotton.

## ASIA.

The trade with Asiatic ports, excluding British ports, declined by Rs. 6976 lakhs or 31 per cent. The trade with Japan receded by Rs. 611 lakhs due to a decrease in sugar importations. China received less raw cotton and twist and yarn than in the previous year, which reduced her share of the trade by Rs. 2817 lakhs. The trade with Japan fell by Rs. 2977 lakhs as a result of smaller shipments of raw cotton, and tanned sheep skins.

## AFRICA.

There was no variation in the trade with Africa which amounted to Rs. 1202 lakhs.

## AMERICA.

The trade with America, which was practically confined to the United States, receded by Rs. 1281 lakhs. The average tonnage per vessel for the year was 1,326, or 5½ tons more than in the previous year. Of the 154 vessels which entered under foreign colours, 145 were German, 25 Austrian, 8 Dutch, 4 Greek, 2 Russian, 1 Norwegian and 1 Japanese. Of the 129 which cleared, 63 were German, 27 Austrian, 15 Dutch, 10 Italian, 8 Japanese, 4 Greek, 4 Norwegian, 2 Russian and 1 Swedish. The apparent discrepancy between the figures of entries and clearances is explained by the fact that *passenger* vessels from Europe calling at Madras en route to Calcutta are treated as foreign vessels and clearing clearances and vice versa. The average tonnage of all British

seeds entering and clearing worked out at 2,147 tons per vessel, against 2,088 tons in 1912-13, whilst that of the foreign mureh mentioned above was 2,088 tons per vessel compared with 2,013 tons in the previous year.

The distribution of the tonnage under the four main divisions did not undergo any material change. The share of British vessels was 78 per cent. as against 79 per cent. in 1912-13. Foreign vessels claimed 20 per cent. instead of 18 per cent., British Indian vessels and Native craft each claimed 1 per cent. whereas in the previous year Native craft had a percentage of 2. The number of Native craft engaged in foreign trade rose by 74 to 1,097 (British 247, British Indian 668 and Foreign 772) but their tonnage fell by 2,378 tons to 81,428 tons.

### COASTING TRADE.

The aggregate coasting trade declined from Rs. 1,510 lakhs to Rs. 1,428 lakhs, or by 11 per cent. Treasury and Government transactions showed a decrease compared with the previous year from Rs. 28 lakhs to Rs. 26 lakhs; private merchandise fell from Rs. 1,482 lakhs to Rs. 1,402 lakhs, and 84 per cent. of this trade was with British ports in other Presidencies.

The following table shows the distribution of trade with other Provinces compared with the previous year:—

Imports of country produce fell from Rs. 785.24 lakhs to Rs. 755.79 lakhs or by 5 per cent., and resulting imports of foreign merchandise from Rs. 196.86 lakhs to Rs. 97.28 lakhs. Exports of Indian produce declined from Rs. 665.46 lakhs to Rs. 536.05 lakhs or 19 per cent., and those of foreign merchandise from Rs. 13.86 lakhs to Rs. 12.91 lakhs. It will be noticed that coasting trade with Bengal, Bombay, Bihar and Orissa declined whilst that with Burma, Mad. and Non-British Indian ports increased. The decrease of 57 per cent. in imports from Bengal was due to reduced receipts of grain and pulse (—Rs. 146.43 lakhs), coal (—Rs. 4.00 lakhs), and jute gunny bags (—Rs. 1.37 lakhs). Exports to Bengal were less in consequence of smaller shipments of groundnuts (—Rs. 42.15 lakhs), pepper (—Rs. 10.81 lakhs), coconut-oil (—Rs. 6.05 lakhs), turmeric (—Rs. 2.42 lakhs) and groundnut oil (—Rs. 1.45 lakhs). Exports from Bombay showed only a slight fall for though there were smaller receipts of cotton.

## CHIEF PORT (PORT ST. GEORGE).

The value of the total trade of the Madras Port, representing 41 per cent. of the aggregate trade of the whole Presidency against 40 per cent. in 1912-13, amounted to Rs. 2,411,52 lakhs against Rs. 2,189,53 lakhs, an increase of Rs. 222,44 lakhs or 10 per cent. Excluding Government transactions, the trade expanded from Rs. 2,132,61 lakhs to Rs. 2,349,99 lakhs or 10 per cent., the increase being chiefly under foreign trade.

**Foreign Trade (Excluding Government Transactions).—**Imports (excluding treasure) advanced by Rs. 201,04 lakhs to Rs. 1,315,55 lakhs or 29 per cent. The chief factor in this increase was cotton piece-goods, which rose by Rs. 137,77 lakhs to Rs. 469,74 lakhs. Other articles which showed improvement were railway plant and rolling stock (+ Rs. 85,20 lakhs), metals (+ Rs. 51,72 lakhs), machinery (+ Rs. 18,92 lakhs), articles imported by post (+ Rs. 12,09 lakhs), cotton (wrist and yarn (+ Rs. 10,21 lakhs), motor vehicles (+ Rs. 6,55 lakhs), hardware (+ Rs. 5,22 lakhs), glass and glassware (+ Rs. 3,17 lakhs), provisions (+ Rs. 2,78 lakhs), instruments (+ Rs. 2,22 lakhs), stationery (+ Rs. 2,09 lakhs), liquors (+ Rs. 1,77 lakhs), soap (+ Rs. 1,55 lakhs), mineral oils (+ Rs. 1,36 lakhs), and paper and paste board (+ Rs. 1,08 lakhs). There were, however, smaller imports of sugar (— Rs. 7,98 lakhs), cement (— Rs. 5,09 lakhs), raw-cotton (— Rs. 3,03 lakhs) and wood and timber (— Rs. 2,35 lakhs).

Exports increased from Rs. 746,65 lakhs to Rs. 752,42 lakhs, i.e., by Rs. 6,27 lakhs or 1 per cent. This advance was the net result of increases of Rs. 74,97 lakhs under *groundnuts*, Rs. 7,37 lakhs under *coloured piece-goods*, Rs. 7,17 lakhs under *turned skins*, Rs. 4,40 lakhs under *tea and* Rs. 1,99 lakhs under *rice*, partly counterbalanced by reductions of Rs. 86,65 lakhs under *turned hides*, Rs. 13,65 lakhs under *raw cotton*, Rs. 23,15 lakhs under *raw skins*, Rs. 4,44 lakhs under *cotton seeds* and Rs. 2,96 lakhs under *cotton handkerchiefs*.

**Treasure.**—Imports of gold declined from Rs. 4,65 lakhs to Rs. 3,87 lakhs owing to smaller receipts by sea of sovereigns. Imports of silver declined by Rs. 4,52 lakhs to Rs. 12,12 lakhs, the result of fewer imports of bar silver.

**Coasting trade (Excluding Government Transactions).—**Imports declined by Rs. 35,79 lakhs to Rs. 153,52 lakhs, a fall of 19 per cent. There were smaller receipts of kerosene oil (— Rs. 16,16 lakhs), grain and pulses (— Rs. 10,15 lakhs), coal (— Rs. 7,58 lakhs) and tanned (— Rs. 3,27 lakhs), but imports of raw cotton and jute gunny bags increased by Rs. 8,85 and 1,47 lakhs respectively.

Exports amounted to Rs. 51,24 lakhs against Rs. 143,90 lakhs, a decrease of Rs. 51,44 lakhs or 35 per cent. There were smaller shipments of *groundnuts* (— Rs. 40,31 lakhs), *cotton piece-goods* (— Rs. 6,34 lakhs), *raw cotton* (— Rs. 2,30 lakhs), *cotton twist* (— Rs. 2,73 lakhs) and *tanneries* (— Rs. 2,16 lakhs). Shipments of *fresh vegetables* and *provisions* showed increases of Rs. 3,01 and 1,54 lakhs respectively.

**Shipping.**—The number of vessels entered increased from 538 aggregating 1,445,765 tons to 614 of 1,347,446 tons, but the number cleared declined from 610 of 1,432,524 tons to 598 of 1,745,976 tons.

**Tuticorin.**—This port occupies the first place among the subordinate ports of the Presidency. Its trade rose from Rs. 960,53 lakhs to Rs. 950,51 lakhs, an increase of Rs. 68,48 lakhs or nearly 10 per cent. The foreign trade improved by Rs. 70,04 lakhs and the coasting trade by Rs. 34,30 lakhs. Imports of merchandise from foreign countries advanced by Rs. 1,53 lakhs to Rs. 122,85 lakhs, the increase being the result of an expansion of Rs. 5,25 lakhs under *metals*, Rs. 2,68 lakhs under *belemnites*, Rs. 2,08 lakhs under *kerosene oil* and Rs. 1,18 lakhs under *cotton twist and yarn*, but there was a decrease of Rs. 8,21 lakhs under *machinery* and Rs. 2,23 lakhs under *sugar*. Imports of *treasure* increased by Rs. 1,77 lakhs in consequence of larger receipts of bar silver. Exports of merchandise to foreign countries increased by Rs. 5,14 lakhs to Rs. 578,77 lakhs. The improvement was brought about by larger shipments of *rice* (+ Rs. 26,11 lakhs), *tea* (+ Rs. 5,97 lakhs), *oil-seeds* (+ Rs. 4,19 lakhs), *coloured piece-goods* (+ Rs. 4,50 lakhs) and *rubber* (+ Rs. 2,53 lakhs), but exports of *raw cotton* and *cotton twist* decreased by Rs. 85,20 lakhs and Rs. 2,79 lakhs respectively. Exports of *treasure* increased by Rs. 61,20 lakhs owing to

larger shipments of sovereigns and Government of India rupees to Sumatra trade at Colombo. Under coasting trade, imports expanded by Rs. 23-18 lakhs as a result of larger receipts of grain and pulse (+ Rs. 26-94 lakhs) and raw cotton (+ Rs. 4-70 lakhs); but less foreign cotton piece-goods (- Rs. 9-25 lakhs) and copper (- Rs. 1-25 lakhs) were transhipped coastwise to Tutuora. Less country goods (- Rs. 1-03 lakhs) and salt (- Rs. 1-05 lakhs) were received. Coastwise exports declined by Rs. 6-79 lakhs in consequence of smaller shipments of raw cotton (- Rs. 13-25 lakhs); shipments of gum and paku, however, increased by Rs. 3-56 lakhs.

The total number of vessels that entered at Tutuora was 1,795 with a tonnage of 1,332,645 against 1,856 of 1,845,367 tons in the previous year. The total number of vessels cleared was 1,802 of 1,236,350 tons against 1,910 of 1,532,170 tons.

**Cochin.**—Cochin, the chief centre of the coconut industries, ranked second among the outputs of the Presidency. Its total trade expanded from Rs. 637-18 lakhs to Rs. 700-95 lakhs or by 10 per cent. The foreign trade advanced by Rs. 48-95 lakhs but the coasting trade declined by Rs. 5-18 lakhs. Under foreign trade, imports expanded by Rs. 12-68 lakhs, and exports by Rs. 56-27 lakhs. There were increased imports of metals (+ Rs. 4-49 lakhs), sugar (+ Rs. 1-35 lakhs), kerosene oil (+ Rs. 1-32 lakhs) and machinery (+ Rs. 1-16 lakhs). The improvement under exports was brought about by heavier shipments of copra (+ Rs. 24-88 lakhs), rubber (+ Rs. 10-45 lakhs), coal (+ Rs. 4-08 lakhs), coin manufactures (+ Rs. 2-21 lakhs) and krongras oil (+ Rs. 2-93 lakhs); but shipments of tea, pepper and cloves showed a falling off of Rs. 7-44, 3-77 and 1-56 lakhs respectively. Under coasting trade, smaller receipts of grain and pulse (- Rs. 11-37 lakhs), and larger consignments of foreign cotton piece-goods reduced the imports by Rs. 5-96 lakhs; while under exports there were larger shipments of cloves and smaller shipments of ginger resulting in a slight increase of Rs. 0-77 lakh.

The number of vessels entered was 1,142 with a tonnage of 776,371 against 1,095 of 880,556 tons in 1913-14. The number cleared was 1,159 with a tonnage of 809,781 against 1,082 of 874,455 tons.

**Coonanada.**—The total value of the trade of this port amounted to Rs. 277-87 lakhs against Rs. 323-17 lakhs in 1913-14, a decrease of Rs. 45-30 lakhs, or 14 per cent. made up by Rs. 16-52 lakhs under foreign trade and Rs. 27-94 lakhs under coasting trade. The decrease under foreign trade was the net result of smaller shipments of raw cotton (- Rs. 29-70 lakhs), cotton seed (- Rs. 10-59 lakhs) and cotton-seed (- Rs. 5-72 lakhs), partly counterbalanced by larger shipments of rice and paddy (+ Rs. 16-50 lakhs), jayin wood (+ Rs. 3 lakhs) and cloves (+ Rs. 1-17 lakhs). The decrease under coasting trade was chiefly caused by smaller exports of raw cotton (- Rs. 10-45 lakhs), chillies (- Rs. 1-39 lakhs), cotton oil (- Rs. 1-63 lakhs) and jayin seed (- Rs. 1-63 lakhs).

Two hundred and twenty-five vessels of the aggregate tonnage of 506,156 entered against 260 of 541,013 tons in the previous year and 223 of the tonnage of 500,012 cleared against 275 of 574,251 tons.

**Calcutt.**—The total value of the trade of Calcutt improved from Rs. 249-28 lakhs to Rs. 265-76 lakhs. Foreign trade expanded by Rs. 25-81 lakhs, but coasting trade declined by Rs. 3-35 lakhs. Imports from foreign countries increased by Rs. 13-44 lakhs, chiefly brought about by larger supplies of railway plant and rolling stock (+ Rs. 5-33 lakhs), metals (+ Rs. 2-17 lakhs), sugar (+ Rs. 1-18 lakhs) and machinery (+ Rs. 1-00 lakhs). Foreign exports advanced by Rs. 10-57 lakhs for which increased shipments under tea (+ Rs. 7-31 lakhs), coin manufactures (+ Rs. 2-84 lakhs), coffee (+ Rs. 5-62 lakhs), madraswood (+ Rs. 1-43 lakhs) and pepper (+ Rs. 1-21 lakhs), were mainly responsible; but there was a decrease of Rs. 0-90 lakhs in the shipments of copra. The decline under coasting trade was brought about by smaller shipments of ginger (- Rs. 3-65 lakhs). 1,715 vessels of the total tonnage of 544,113 entered, and 1,633 vessels with a tonnage of 512,749 cleared against 1,810 of 674,663 tons and 1,610 of 534,816 tons respectively in 1913-14.

**Negapatnam.**—The trade of Negapatnam advanced by Rs. 9-78 lakhs to Rs. 216-47 lakhs, foreign trade improving by Rs. 13-27 lakhs and coasting trade receding by Rs. 3-49 lakhs. Heavier shipments of groundnuts (+ Rs. 4-34 lakhs), articles by post (+ Rs. 4-04 lakhs) and rice (+ Rs. 2-08 lakhs) brought about

an increase under foreign trade. Under coasting trade there were diminished importations of coal (— Rs. 1-26 lakhs) and jute gunny bags (— Rs. 1-45 lakhs). The number of vessels entered at Koppinapattam declined from 471 in 1912-13 to 482 and their tonnage from 772,825 to 625,731. The number of vessels cleared was 434 of 701,315 tons against 463 of 772,412 tons.

**Mangalore.**—The total trade of this port amounted to Rs. 263-57 lakhs compared with Rs. 197-04 lakhs in the previous year. The volume of foreign trade remained stationary; there were larger shipments of dried fruits and stickwood and smaller shipments of coffee. Coasting trade increased considerably as there were heavy imports of coffee, grain and pulses, cotton twist and ornamental wood. The number of vessels that entered and cleared during the year was 2,255 and 2,297 aggregating 253,387 and 230,438 tons against 2,303 of 313,328 tons and 2,260 of 317,148 tons respectively in 1913-14.

**Cuddalore.**—The trade of this port declined from Rs. 224-57 lakhs to Rs. 160-33 lakhs, showing a decrease of Rs. 41-06 lakhs under foreign trade and Rs. 23-15 lakhs under coasting trade. Imports from foreign countries rose by Rs. 7-24 lakhs as the result of larger receipts of balakats (+ Rs. 3-26 lakhs) and sugar (+ Rs. 3-11 lakhs) while exports fell by Rs. 48-89 lakhs in consequence of smaller shipments of groundnuts (— Rs. 45-59 lakhs) and oilseeds (— Rs. 3-95 lakhs). The decline under coasting trade was the result of smaller shipments of groundnut oil (— Rs. 25-59 lakhs) and larger receipts of grain and pulses (+ Rs. 4-13 lakhs). The number of vessels that entered and cleared was 237 and 231 and the tonnage 334,114 and 340,939 respectively. The figures for the previous year were 211 of 338,418 tons and 245 of 361,089 tons.

**Tellicherry.**—The trade of this port decreased from Rs. 146-92 lakhs to Rs. 120-42 lakhs. Foreign trade improved by Rs. 4-04 lakhs but coasting trade declined by Rs. 29-34 lakhs. Under foreign trade there were larger shipments of pepper (+ Rs. 6-93 lakhs) and smaller shipments of coffee (— Rs. 1-42 lakhs) and tin (— Rs. 1-14 lakhs). Under coasting trade there were smaller imports of grain and pulses (— Rs. 14-54 lakhs) and smaller exports of pepper (— Rs. 9-93 lakhs).

**Himilipattam.**—The foreign trade of Himilipattam improved from Rs. 19-60 lakhs to Rs. 28-63 lakhs owing to larger shipments of raw jute (+ Rs. 49-53 lakhs), but the coasting trade declined from Rs. 3 lakhs to Rs. 6-63 lakhs.

**Visagapatnam.**—The trade of this port improved by Rs. 17-86 lakhs to Rs. 45-79 lakhs owing to larger foreign exports of raw jute (+ Rs. 19-13 lakhs) and groundnuts (+ Rs. 11-70 lakhs). Shipments of sugar and maniocose ore were smaller by Rs. 7-28 lakhs and Rs. 1-04 lakhs respectively.

**Porto Novo.**—The trade of Porto Novo, which consisted chiefly of groundnuts, decreased from Rs. 49-77 lakhs to Rs. 47-57 lakhs.

**Badagara.**—Smaller exports of copra to foreign countries (— Rs. 6-62 lakhs) and smaller imports of grain and pulses combined (— Rs. 7-34 lakhs) were chiefly responsible for the decline in the total trade of the port by Rs. 17-42 lakhs to Rs. 44-07 lakhs.

**Cannanore.**—The total trade declined from Rs. 31-11 lakhs to Rs. 45-11 lakhs as the result of smaller coastwise imports of grain and pulses (— Rs. 4-77 lakhs), cotton piece-goods (— Rs. 8-73 lakhs) and cotton twist (— Rs. 1-29 lakhs). Exports of pepper decreased by Rs. 7-03 lakhs.

**Other subordinate ports.**—There was very little variation in the trade of Nalambkarapattam which stood at Rs. 18-24 lakhs, while the trade of Ponnani declined from Rs. 19-82 lakhs to Rs. 14-56 lakhs as a result of smaller imports of grain and pulses combined. The trade of Pamban declined from Rs. 27-04 lakhs to Rs. 12-46 lakhs owing to smaller receipts of railway material, etc., for the Indo-Ceylon Railway. There was also a decrease in the imports of grain and pulses combined. The trade of Gopalgur rose from Rs. 5-92 lakhs to Rs. 10-77 lakhs in consequence of larger shipments of rice to foreign countries and that of Chingleput from Rs. 1-85 lakhs to Rs. 10-63 lakhs owing to heavier shipments of groundnuts. Smaller shipments of rice and paddy, both to foreign countries and coastwise, brought down the trade of Mambipattam from Rs. 12-33 lakhs to Rs. 7-20 lakhs.

Under class C (4) thirty cases of Dutch condensed milk were imported without the fact that it had been prepared from skimmed milk being properly shown.

Penalties amounting to Rs. 1,087 were imposed in 179 cases. In the previous year there were 18 cases and the penalties amounted to Rs. 889.

**The Cotton Duties Act.**—The total production of yarn in this Presidency was 44,677,635 lbs., a slight decrease of 500,512 lbs. or 0.46 per cent. when compared with the previous year. The mills in Madras City produced about one-third of the total.

The quantity of cloth manufactured increased by 221,994 lbs. from 9,125,534 lbs. to 9,347,528 lbs. or 2.4 per cent. The mills in Madras City produced 2,261,934 lbs. or more than 50 per cent., a slight decrease from the previous year, whereas the mills in the mofussil produced 695,538 lbs., a substantial increase over 1912-13. The slight decrease in Madras is attributed to the suggested strike of the local market.

22. Read, approved and received the minutes of the proceedings of the previous meeting held on Friday, the 1st May 1914.

23. Read Government memorandum No. 351-1, dated the 17th March 1914, forwarding for an expression of opinion a copy of a Memorandum by the Director-General of Oceanography, proposing a revision of the storm signals in use around the coast of India and of the arrangements for the distribution of weather news.

Read also a note by the Chairman, dated the 7th May 1914, to the effect that already, with his letter No. G. 214, dated the 7th May 1914, he had furnished Government with a copy of a note on the subject of the memorandum by Commander Viner, R.N.M., Deputy Commissioner, in which technical matters were fully dealt with.

Resolved to inform Government that the Port Trust Board accepts the views of its Deputy Commissioner so far as they go, but desires to add that it is strongly of opinion that the latest and possible should be made of wireless telegraphy for the dissemination of weather news to the ports and the shipping around the coast of India.

24. Read a note by the Chairman recommending a revised estimate for Rs. 1,400, in substitution for that sanctioned in Resolution No. 214, dated the 15th December 1913, for asked on the Port Trust premises for the use of the Madras Sailing Club.

Resolved that the revised estimate be sanctioned and that the Club be charged with the rate of Rs. 25 per annum from the 1st of April 1914.

25. Read a note by the Chairman giving reasons for the adoption of the term *Trevel due* instead of "Storage" for the charges accruing for the use of the Trust's wharves and space, on goods when over from steamer agents pending removal by ocean.

Resolved to sanction the Chairman's use of the term *Trevel due* in the Revised Rules of Rates and Statement of Conditions and Services now before Government.

29. Read a note by the Traffic Manager, supported by the Chairman recommending a special allowance of Rs. 12 per annum for each of those checkers who, in charge of the three broken, jacking gauges—the allowance to be in addition to each man's existing salary, and to be granted only for such time as he may be in charge of a broken-jacking gauge.

Resolved to sanction the proposal.

30. Read a note by the Traffic Manager, supported by the Chairman, asking for sanction to the appointment, from 10 a.m. to 4 p.m. on night-work days, of 15 additional checkers thus bringing the total number of checkers up to 34 of whom there will be 13 in each of the grades on salaries of Rs. 18, Rs. 24 and Rs. 27 respectively and 25 in the Rs. 18 grade, besides the checkers still being at the same time allocated.

Resolved to sanction the proposal.

31. The Board took into consideration the case of the deceased M. A. J. Ratham, lately an Assistant Harbour Master, who was suspended on the 26th November 1913 with instructions to take legal steps to clear his character. It was noted that Ratham was prevented by illness from complying with these instructions and that he died on the 26th May 1914.

Resolved that, on the grounds of Article 1-3 (f) of the Civil Service Regulations, half pay be allowed to M. A. J. Ratham from the date of his suspension until the date of his death.

32. Read a letter, dated the 18th May 1914, from Mr. Somerset Playes of the Foreign and Colonial Compiling and Publishing Company, 27, Piccadilly Street, London, E.C., asking the Chairman to pay at the rate of Rs. 500 per page, for the insertion of four pages of photographs, illustrating Madras harbour facilities, in their forthcoming volume on *South India: its history, commerce and general industrial resources*.

Resolved that Mr. Somerset Playes be informed that, under the momentary circumstances of the development, it would be of little service to the port to publish photographs illustrating the facilities which it is offering to trade just now; but that things will have advanced considerably by this time 27 months, and that the Board will be prepared then to take into consideration a further application from the Publishing Company.

The Standard Barometer and Thermometer are used at 5 A.M., 10 A.M., 3 P.M., and 8 P.M., and the daily means are obtained by the application of hourly corrections, deduced from twenty years' observations. The station of the barometer is twenty-two feet above the level of the sea, and the maximum of the rain gauge is two feet from the ground. The wind, rain and general weather registered are for the current Civil Day—from midnight to midnight.

The total quantity of rain collected since January 1st is 8.12 inches, the average day for the same period being 4.95 inches.
